SUMMARY

MCA First-Year student at KJ Somaiya Institute of Management with hands-on experience in full-stack development, including TypeScript, React, ASP.NET Core, MERN stack, SQL, and MongoDB. Passionate about building scalable applications, solving real-world problems, and continuously improving technical expertise.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, C#, C++, Python
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend Development:** Node.js, Express.js, ASP.NET Core, REST APIs, MERN Stack
- **Databases:** SQL Server, MySQL, MongoDB
- **Development Tools & Platforms:** Visual Studio, Visual Studio Code, Git, GitHub

PROJECTS

Smart Attendance Management System | QR-Based Full Stack Web Application

Built a QR-based attendance system with ASP.NET Core, React, TypeScript & SQL Server, featuring role-based access, time-limited QR codes, JWT authentication, dashboards, and defaulter tracking.

AYUSH Startup Registration Portal | Backend Developer | Smart India Hackathon 2024

Built a streamlined AYUSH startup registration portal with robust backend logic, schema design, routing, and role-based access. Implemented Express-based APIs, MongoDB integration and secure environment configuration.

Alumni Portal | Developer | Pillai College of Engineering, Hackathon 2024

Developed an alumni connect portal enabling event updates, networking, donations, and project contributions to strengthen alumni–student engagement. Built using Core PHP, MySQL, HTML, CSS, and JavaScript.

Vehicle Mileage Prediction | YBI Foundation | Python, Machine Learning

Developed a vehicle mileage prediction model during an AI/ML internship using Python, Scikit-Learn, and Pandas. Built the full ML pipeline—from preprocessing to model training and evaluation—and achieved high prediction accuracy.

Computer Component Marketplace | Full-Stack E-Commerce Platform for PC Hardware

Developed a full-stack e-commerce platform for browsing and purchasing PC hardware components. Implemented product filtering, sorting, secure checkout, and order management.

Core Agency – Full-Stack Agency Portfolio Website

Built a full-stack agency portfolio website with animated UI, service listings, project showcases, testimonials, and contact management for a professional digital presence.

Forest Rights Administration (FRA) Dashboard – Ministry of Tribal Affairs

Designed and built a digital dashboard for the Ministry of Tribal Affairs to streamline forest rights administration and monitoring. The platform improves rights management and strengthens oversight of tribal community resources.

My Personal Interactive Developer Portfolio

Created a modern interactive portfolio with sleek UI, smooth animations, skill highlights, and project showcases, delivering a polished and responsive personal brand experience.

WORK & VOLUNTEERING EXPERIENCE

Full-Stack Developer Intern – Origin8tive

December 2025 – April 2026

Contributed to the development of CRM and HRMS systems, working across frontend and backend components. Developed and maintained business websites based on client requirements while implementing new features, improving functionality, and resolving development issues across multiple projects.

DevTech Intern – quant Money Managers Limited

April 2025 – July 2025

Served as a DevTech Intern at quant Money Managers Limited, contributing to multiple projects under the guidance of senior engineers. Actively supported development tasks and demonstrated strong commitment, collaboration, and technical growth throughout the internship.

AI/ML Intern – YBI Foundation

June 2024 – July 2024

AI/ML Intern at YBI Foundation, where I built a vehicle mileage prediction model and implemented the full ML pipeline using Python, Pandas, and Scikit-Learn.

Graphic Head | CSI Student Branch

Led the design team for the Research Paper Presentation Conference, creating visual assets, branding materials, and supporting event execution through effective creative leadership.

ACHIEVEMENTS

- ✓ 1st Rank – Internal Smart India Hackathon 2024 | Vidyalankar School of Information Technology
- ✓ Finalist – Smart India Hackathon 2024 | Grand Finale, IIT Tirupati
- ✓ 2nd Rank – Tantra Vihar 2026 | Inter-Collegiate Project Exhibition & Competition
- ✓ Career Essentials in Generative AI | Microsoft & LinkedIn
- ✓ TCS iON Career Edge – Young Professional | TCS iON

EDUCATION

- Bachelor of Science in Information Technology | Vidyalankar School of Information Technology, Mumbai | 2023-2026 (3 years).
